Serbian — Native

English — Intermediate

EXPERIENCE

Freelance – Full Stack Developer

Apr 2026 – Present

Worked on full-stack web applications for clients across healthcare and e-commerce, contributing to both frontend and backend development.

Mental Health Platform

- Developed a mental health platform using React and Node.js.
- Built backend functionality and APIs using GraphQL and TypeORM.
- Worked on anonymous user interactions, community posts, and online workshops.

E-commerce Platform

- Developed an online store for lighting products using React, Node.js and Express.
- Worked across both frontend and backend functionality.
- Built and integrated product and e-commerce features.

React

Node.js

Express

GraphQL

TypeScript

TypeORM

Distrikt Nekretnine — Full Stack Developer

Jan 2026 – Apr 2026

Full-stack real estate platform developed for managing and presenting property listings, search, filtering and user-facing functionality.

- Developed the complete frontend and backend for a production real estate website.
- Built modern, responsive UI with Next.js and TypeScript.
- Implemented backend services and API layer using Node.js and GraphQL.
- Designed and managed database models with TypeORM.
- Integrated Redis for caching and performance optimization.
- Delivered a fast, scalable and SEO-friendly platform used by real users.
